TIBETAN ACADEMY, a California Nonprofit Public Benefit Corporation

REIKI 2

John Crundall, Reiki Master
and Ellen Rose, Reiki Master

of the

USUI REIKI CENTER

Melbourne, Australia and Santa Barbara, California

REIKI Masters John Crundall and Ellen Rose

Denise and John Crundall, who practiced Reiki together for over eighteen years, taught full-time in Australia (in every state), Canada, Germany, and the US (Santa Barbara, San Diego and San Jose.) Denise and John established the USUI Reiki Center in Melbourne, Australia, a healing center run entirely by volunteers and funded by donations. Their Center inspired the establishment of sister centers in Australia (in every state), Toronto, Canada, and California (Santa Barbara, San Diego and San Jose.) Denise and John's work in the AIDS community, and with those facing life-threatening illnesses, inspired dignity and compassion in those they touched, which gained them much respect throughout the world for their dedication to Reiki healing. Denise and John's wisdom and insight have helped many find the self-respect and love to heal themselves and discover their own spirituality. Denise passed away in 2002, and John continues to carry their commitment and vision of bringing Reiki healing to everyone. Ellen Rose, an intern with Denise and John for many years, began assisting John in the Reiki teaching and healing Journey in 2004.

The Reiki Method of Natural Healing

This extensive experiential workshop provides an opportunity for the student to enhance their present skills. Upon completion the student will be able to:

- Describe the difference between fixing, curing, healing, conscious touch, and thought-form.
- Describe three case studies that demonstrate the significance of Reiki in a terminal patient.
- Describe the hand positions utilized in working with a patient in-person and in thought-form.
- List at least three situations in which Reiki may be used therapeutically.
- List at least two qualities of a Reiki practitioner.
- Describe how Reiki is a complimentary (vs. alternative or exclusive) healing modality in the medical community.
- Explain the principles of healing that Reiki is based upon.
- Bring the patient into thought-form and write out the message from the patient's higher self. (Enabling the practitioner to provide a healing experience for the patient without the patient being present [absentee healing].)
- Use the absentee healing technique to work on the practitioner's own journey with their higher self.

REIKI teaches hands-on healing as a complimentary adjunct to conventional medical practice. Using case studies, lectures, and group participation the student will learn to utilize the UNIVERSAL LIFE ENERGY, which is REIKI. When activated, REIKI addresses body, mind and spirit, accelerating one's ability to heal one's self.
